Tower Course Membership

Are you a Beginner, Senior or Nomadic Golfer?

Would you like to get an Official CONGU Handicap* or maintain your current Handicap but can't justify paying a full Golf Club Membership? Then this could be the membership for you!

The Tower Course Membership is Based on the 9 Hole Tower Course which is a Par 30 Course with six Par 3 Holes & three Par 4 Holes and ideally suited for the beginner, senior or nomadic golfer.

Beginner Golfer - New to golf and not quite ready for a full 18 Hole Golf Course but would still like to get an official CONGU Handicap* & play in competitions.

Senior Golfer – Having spent years battling to maintain your handicap as a club member it seems a shame to just let it lapse by not having an affiliation to a CONGU registered club because you can no longer play a full 18 Holes.

Nomadic Golfer – Can't justify paying a full golf club membership? Golf courses are constantly trying to attract new business with green fee deals so you can still enjoy a wide variety of courses for your money and still have an official CONGU Handicap* by being a Tower Course Member.

Not only will a Tower Course Membership give you an official CONGU handicap* but also give you the freedom to roam as you only pay as you play once you have joined. Tower Course Members will be able to play for a reduced Green fee each time they play.

*To gain and maintain an official CONGU handicap terms & conditions apply
